Festival Indonesia Festival is a regular meeting of festival promoters on the New Year. It is a forum to share experiences as well as building cooperations between artists and promoters, while also used to launch a yearly calendar of events to the public. It talks about upcoming exhibitions, concerts, seminars, documentary festivals, bazaars, culinary events, internal meetings, as well as carnivals on car-free days. The festival is held in the Sapta Pesona Building, Indonesia's Ministry of Tourism Headquarters. An area that was used as a place of meetings by the country's founders, back when they have just invented the idea to build a nation in the 1920s.
