## MIDDLE REEF AND CLOSE ENCOUNTERS

---

There are several dive sites with low currents and high visibility that are perfect for beginners. We dove Middle Reef and Close Encounters, which were both beautiful and made for an easy and relaxing dive. The amount of fish in this area of the world is astounding. One of the highlights of our dive to middle reef was getting up close with a cuttlefish!

"There's a big difference between simply being a tourist and being a true world traveler."

## GAIN NEW MEMORIES & ENJOY THE DIFFERENCE

Another project the Reef Gardeners are working on is the Underwater Temple Garden, an incredible and unique dive site in Pemuteran. Divers with their advanced certification can go to the bottom of the temple at 30m depth. The visibility that deep is pretty low, and your oxygen tends to go rather quickly, so it's by no means necessary to go to the bottom. A second part of the garden has been added at 15m, with several Buddha statues, covered in newly formed corals.
