Banyuwangi's rousing ethnic carnival displays the elegance of the archipelago's traditional costumes. Its passionate participants, spectators, and promoters are the main attraction of this event. The diversity of ethnics that have established the society is reflected through this festival. Javanese, Madurese, Padalunganese, Balinese, and Osings are mixed together, creating a unique artistic expression. Accompanied by the sound and motion of Gandrung Sewu Dance, an iconic dance of Banyuwangi, this carnival flows continually through the city streets. People come to this carnival to watch and be seen.
