The Carnival of Independence is an annual cultural parade that takes place at different cities and/or chosen destinations every year. It was held in Pontianak on 2015, in Lake Toba on 2016, and in Bandung on 2017. Since its first event in 2005, The Carnival of Independence always takes place in front of the Presidential Palace. Boasting the richness of visual cultures and local garments that are vibrant and magnificent, the Carnival of Independence are one of the best things about Indonesia's Independence Day celebration.
