Jember Fashion Carnival (JFC) is the Archipelago's answer to the world, be it Rio, Noting Hill, or the Venetian Carnival. The extravagance it shows is more than three kilometers, causing the quiet town of Jember to get mapped by the fashion world. This event takes place for four days, bringing various categories, including kids, traditional, and fashion exhibition and convention. Pioneered by Dynand Fariz, an artist and an educator that has inspired the wave of carnivals throughout the cities of Indonesia.
